DEPARTMENTS

EDITOR'S NOTEBOOK

From interstellar travel to Battlestar Galactica

2

LETTERS TO THE EDITOR

Grill the candidates about space R&D; unsettled climate debate?

3

IN BRIEF

Sense and avoid options; RD-180 engines; amateur rockets

4

CONVERSATION

Talking hypersonics

8

ENGINEERING NOTEBOOK

Sailing on electricity

12

OUT OF THE PAST

44

CAREER OPPORTUNITIES

FEATURES

PROXIMA CENTAURI BY 2099

Interstellar travel remains the stuff of science fiction, but breakthroughs could be in reach, provided we're willing to compromise on some of our more fanciful visions.

by Michael Peck

18

FAA'S CYBER AWAKENING

After multiple wakeup calls about the potential vulnerability of its NextGen air traffic control systems to cyberattacks, the FAA is working to improve the network's defenses.

by Henry Kenyon

26

WEATHER SOUNDINGS: A CHALLENGE TO THE STATUS QUO

NASA, NOAA and their partners have spent decades and millions of dollars making instruments to measure the temperature and moisture of the atmosphere from space. NOAA is now listening to those who say there might be another way.

by Ben Iannotta

32

VIEWPOINT: DRIFTING TOWARD SPACE WEAPONS

The Obama administration's faith in diplomacy is well known. But when it comes to curbing the militarization of space, the administration's rhetoric has turned more bellicose than diplomatic.
