Cover

FLIR Systems IdentIFINDER R400 field user training to rapidly detect, quickly locate, accurately measure and precisely identify radiation sources. (Photo: FLIR Systems)
Small inserts on cover depict: IAI recently delivering its 1,000th EHUD Autonomous Air Combat Maneuvering Instrumentation Training System (AACMI) to the Italian Air Force (Graphic: IAI); Exercise "Eagle Resolve" 17, held on 2 April 2017 in Kuwait, setting out a hypothetical scenario of munitions loaded with a mustard gas chemical agent landing near a mosque, resulting in five to 10 casualties (Photo: US DoD); and an Improved Ribbon Bridge (IRB) developed by General Dynamics European Land Systems (GDELS) (Photo: GDELS).
Small insert in contents shows Canadian Forces 400 Tactical Helicopter Squadron load a CH-146 GRIFFON helicopter with toys bound for the Hospital for Sick Children during Operation "Ho Ho Ho" on 14 December 2016. The initiative to bring holiday cheer to children who must be in SickKids Hospital over the Christmas season has been running for 13 years. (Photo: Canadian DoND/Corp. Lindsay Neifer)
